**Kylie Jenner's** monthly cooking show, *Cooking With Kylie*, is back again and this time she's brought along her fellow Liquid lippie queen, **Karrueche Tran**. Featured on both Kylie's app and Karreuche's YouTube channel, the two prepped for shrimp tacos while laughing and making kind of a mess. So what did we learn? Kylie likes her taco medium soft, and Kae doesn't hold back when it comes to the grease.

The whole thing feels fresh and playful, like you and your home girl making dinner but you're still trying to be cute. Let's face it though; we all pretty much all know how to construct a taco. It goes right up there with boiling an egg and making a grilled cheese. However, if you want the down low on how these ladies make their Mexican fare, check out their tutorial below.
